I've hunted all over for the past 15 years, but I've never had an experience like Sandy Hills! While glassing thousands of acres of Eastern Colorado, a mule deer of a lifetime could appear in front of you like it has for me and many others. Jeremy is one of the most knowledgeable hunters there is. He also has a outstanding group of guides. Needless to say, I'll be hunting with Sandy Hills forever!

I have known Jeremy Fiscus for 5 years now. After our second year of hunting together Jeremy asked me if I would be coming back the next year. My reply was "Man, are you kidding me? You are going to have to run me off to get me to quit coming". I have hunted with a lot of different people all over the west and I will put Jeremy and his guys up against ANYONE.
